

THE DAILY STAR

FRIDAY, NOVEMBER 19, 1910

LARGEST CIRCULATION IN THE CITY.

Probably light rain this afternoon, or evening; and warm weather and clearing or partly cloudy to-morrow morning.

LOCAL BREVITIES.

The promenade concert at Casino Hall, for the benefit of St. Ludwig's Church, will be continued till Sunday evening inclusive.

Dr. L. L. LENTHALL lectures at the Mount-street Temple this evening. Subject: "The Jews Politically, Historically and Religiously considered."

Dr. M. W. WISE lectures this evening at the Temple, corner Plum and Eighth streets, on "A Catholic's View on the Immortality of the Soul."

Mrs. ANNIE W. CORWIN, of East Walnut Hills, had a pocket-book containing four dollars stolen from her by a thief at the Lower Market yesterday.

BISHOP JAGGER delivered a missionary sermon last evening at St. Paul's, at the convocation of the Board of Missions of the Protestant Episcopal Church.

THERE will be a meeting for young ladies this evening in the audience room of St. Paul's, to be addressed by the young ladies of the Temperance Convention.

MR. HENRY EARNSHAW, Engineer of the Park Commissioners, about six o'clock yesterday evening, fell, as he was attempting to board a Walnut Hill street car, and cut an ugly gash on his forehead.

THE PUPILS of the Fifth District Night School gave a pleasant entertainment last night. The exercises were very interesting and admirably rendered.

The ladies of the Women's National Temperance Association, in their second day's deliberation, appointed Committees on Medical Commission, Lectures Bureau, Finance and a Committee to consider the proposed International Convention. Reports from the Committee were read and adopted.

CINCINNATI LODGE, No. 133, F. and A. M., at its annual meeting, last evening, elected the following officers for the ensuing year: Emil Kahn, W. M.; L. W. Fuchsmeier, S. W.; E. G. Johnson, Jr., J. W.; J. H. Hower, Treasurer; Henry Nietzer, Jr., Secretary; D. Henly, S. D.; J. Faulkner, J. D.; N. Drucker, Tyler; E. H. Kirk, J. Henly, Stewards.

Marriage Licenses.
The following marriage licenses were issued since our last report:

Laurence Denterlein and Lizzie Minke. Thee Markland and Mirtle Flowers. M. Moloney and Kate O'Leary. Henry Valois and Hannah Seville. Rudolph Barndt and Minnie Leberhaus. Wm. Lautner and Anna Meyer. Jas. O'Hara and Julia Flaudy.

Mr. D. Conway's Lecture.
Mr. Conway will deliver his last lecture in this city to-night at College Hall. Subject: "The Fossil Man," being a review of the ideas of the leading English scientists on the antiquity of man. This is said to be one of Mr. Conway's best efforts and will no doubt draw a large audience.

The Rifle.
The Cincinnati Light Guard Rifle Team, under the veteran Capt. Charles Karm, go into practice on the 25th inst., at the range on the grounds of R. M. Shoemaker, at Glendale. Arrangements have been made with the various railroads to pass members and their friends at half-rate rates, and all interested in rifle shooting are cordially invited to be present.

Amusements.
THE GRAND OPERA-HOUSE.—Mr. Barry Sullivan appeared as "Richelieu" again last evening to a large audience. The enthusiasm was greater even than upon his first representation, especially in the great anathema scene, which, together with the great combat in "Richard III," will long live in the memory of our people. "Hamlet," Mr. Sullivan's great masterpiece, in fact the greatest piece of acting of the age, will be given again this evening, and lovers of Shakespeare and the legitimate, should not let this opportunity pass of seeing the greatest "Hamlet" of the day. The "Stranger" will be given at the Matinee to-morrow.

WOOD'S THEATRE.—Lotta was greeted by another overwhelming audience last evening. The little lady is a great favorite in these parts and the "biggest card" that Mr. Macaulay has offered the public this season. "Zip" will be withdrawn at the end of this week to make way for "Musette," another of Lotta's great hits, which will run through next week. "Zip" at the matinee to-morrow.

ROBINSON'S OPERA-HOUSE.—The "Two Orphans" drew a good house last evening, and we doubt not, had this favorable time, when the attraction in other quarters was not so great, that they would have created quite a sensation, for certainly a better troupe never visited our city. There will be a grand matinee to-morrow.

THE NATIONAL.—This house was well attended last evening. The programme was a good one and well carried out. S. C. France, in his great play "Marked for Life," will open here next week.

Court Outings.
The Eighth-street railway extension case came before Judge Force again yesterday, and a conditional injunction granted, which was virtually a victory for the defendants.

N. J. Harris vs. D. Lazarus. Suit to revive judgment rendered by a Magistrate in 1875 for \$250, the amount claimed. The Court found that the claim had been settled, and gave judgment for the defendant.

The case of John Thomas, charged with incest and rape, before Judge Avery, was disposed of, the jury rendering a verdict of not guilty.

The jury in the case of M. Cline vs. William Quirk disagreed and was discharged.

Helen Hoffner against Gottfried Mark, a saloon-keeper, obtained a verdict in her favor for \$300.

Wm. H. Stulman vs. Weise. Verdict for defendant.

The will of Fanny B. Haven was yesterday admitted to probate.

F. H. Rowekamp was yesterday appointed administrator of Herman Blatt. Personalty, \$2,000.

The man who is curious to see how the world could get along without him can find out by sticking a cambric-needle into a mill-pond, and then withdrawing it and looking at the hole.

AROUND THE FESTIVE BOARD.

The Tanners and Hide Dealers Entertained by the Local Trade.

The Western Tanners and Hide Dealers having yesterday finished the business part of the programme, were entertained last night at a magnificent banquet tendered them in Melodeon Hall by the trade of Cincinnati.

There was no prearranged order of exercises, but at the appointed hour Mr. Marcus Rasche invited the guests to be seated, and full justice was done the elegant repast. Mr. Louis Ballauf did the honors in behalf of our local trade.

Supper over, Mr. Shuff, of Louisville, made a very pleasant little speech, concluding with the toast: "The Queen City of the West, its Tanners, and Hide Dealers."

Mr. Ballauf was called upon to respond, which he did in a pleasant vein, referring to both the business and social aspects of this gathering. He thought out one thing was necessary to make the object of the members of this Association a complete success, and that was for the shoe-dealers to reach out for the foreign trade, that of right belongs to this country. He could not see the propriety of leather tanned in the West being sent to New York, from there shipped to Europe, transported from the seaboard to Switzerland, and there manufactured into boots to be sent to Mexico and South America.

Toast by Mr. Simon Wolfstein—"Our tanners and hide dealers from abroad." Responded to by Mr. Mooney, of Louisville. His remarks were interesting details at length of the leather trade of the country, which the speaker showed ranked in importance next to the father of industries, agriculture. He concluded by assuring his co-workers that the leather business he could well say, in the language of Colonel Sellers, "there's millions in it."

"The resources of Cincinnati," the next toast, was responded to by His Honor Mayor Johnston, who said: "I feel honored by the assemblage here of a body representing so large an element of our industry and wealth as that of the dealers in leather and hides. Cincinnati itself has a large amount of capital invested in it which gives employment to great numbers of people. The increase of the demand for it more than keeps pace with the supply, and there is a pressing need for an attentive investigation into and a discussion of how the supply may be increased and the article cheapened to the masses. Cincinnati has 400 miles of streets to be walked, which if there are not too many street railways, help to the demand."

We have 170 churches to be attended, 10 theaters, and, besides, there are 3,182 saloons which people go to occasionally. The Mayor in conclusion referred to several tanners who had become eminent in other callings, and spoke especially of Hon. Henry Kessler and President Grant. The latter, he said, had done some pretty fair jobs of tanning since he left Galena.

"Our Visitors from Louisville," was responded to by Mr. Ruessner. The next toast was "The Boot and Shoe Manufacturers of Cincinnati," and Mr. H. B. Eckelmann was called upon, and responded as follows:

"Contentment of the hide and leather trade. It is hardly fair to call on me for a response, as I am still an apprentice in the business. I have not quite served my three years yet in the trade of manufacturing shoes. In response to your call I will not use the usual phrase that 'the business is still in its infancy.' I do not believe it is. I think it has grown into boyhood, and a bouncing boy it is, just going to school studying geography and arithmetic. He is tracing the railroads all over the country, finding the cities and towns and locating his trade. In arithmetic his older brethren of the East claim that he is not doing well."

He is figuring too low, but time will tell. Boys usually at school figure better than they do afterwards. When he grows up to full manhood he will control a large portion of the trade, and I venture to say that at a not very distant day Cincinnati will be the center of the shoe manufacturing business. It will add to these few reasons of the natural resources of our country are so great that we can hardly help being the most prosperous people of the world, if we will only shape our own affairs properly. But in order to accomplish this we need more industry; we are supporting too many idlers and 'loafers.' We need more economy; we are too extravagant; we consume entirely too much of the good things of this world, and we very much need, to be more honest. When we sell hides we must put in less salt and sand, and when we sell leather we ought to give less water and more leather."

Mr. Norcross, of the Shoe and Leather Reporter, and Mr. Wood, of Louisville, were called for, and made remarks in a humorous vein; after which Mr. P. G. Stevenson entertained the company for a few minutes in an excellent little eulogy of the leather business and those engaged in it.

Mr. Simon Greenbaum proposed a digression, and offered as a toast "The Leather Trade," and called upon Mr. Joseph to respond.

The next call was for a song from Mr. Lockwood. Mr. Stevenson had learned that this gentleman was a fine vocalist, and Mr. Marcus Rasche introduced him. Mr. Lockwood insisted, however, that he was no singer, and that this call was a joke on Mr. Stevenson; that in fact he was not a singer, but a "Yankee Doodle."

Mr. L. Bardus made a short address in German, which was earnest, and from the attention given it must have been good, and Mr. C. Bardus sang a song.

The last speaker was Mr. Michael Walsh, who congratulated all concerned in this banquet, and urged the trade to progress and perseverance as the sure means of ultimate success.

Then came the motion to adjourn, another song, the good-byes, and all left delighted with the Tanners' and Hide Dealers' Banquet.

Reclamation of the Zuyder-Zee.
The reclamation of the Zuyder-Zee has long been contemplated by the Dutch people and Government, in whom the hereditary instinct of conquest from the sea still survives. At the latest session of the legislative body an appropriation was made for soundage and survey. It is now proposed to reclaim about half the surface of the inlet designated as the Zuyder-Zee by some geographers, or the whole of it according to others. An enormous dike, 40 kilometers or 24.85 miles long, is to be constructed from Kampen, near the mouth of the Yssel river, on the eastern shore, to Enkhuisel, on the western shore.

The dike is to be 23 feet above the water-surface, with an upper parapet 10½ feet high and 10 feet wide on the top, sloping down to an exterior berm or bench 16 feet wide and 6½ feet above the water. An interior berm will serve first as a walk-path to a canal, and afterwards as a track or railway after the reclamation shall have been finished. The dike will cost \$3,000,000 francs, or over \$10,000,000, and the entire expense of the whole work is estimated at \$18,000,000 francs, or \$71,200,000, allowing a value of one-tenth of a British pound sterling for each franc. The area embraced in the project is about 49,844 acres, of

which 46,900 acres will be needed for highways, canals, basins, etc. The remainder, 2,944 acres, will represent the amount of land disposable at a cost of about \$200 per acre.

Last December, the Government sold \$75 acres of land reclaimed from Wykmeer, at an average of \$1,001 per acre. At this rate per acre the National Treasury would receive a prompt reimbursement of the expense with the surplus of 100 per cent, or a clear profit of over \$370,000,000. This, however, is somewhat excessive, but the surplus could scarcely be less than \$200,000,000. There is a difference of opinion as to the time necessary to complete the work, the estimates varying from twelve to sixteen years. The average depth of the Zuyder-Zee is stated at 4½ meters, or about 14½ feet, and the total volume of water to be drained at over 7,500,000,000 cubic yards.

A steam-machinery of less than 10,000-horse power could expel the water within the estimated period within two years. The new Province of Zuyder-Zee will be the tenth province of the Kingdom, and will cover an area of 703 square miles, a little less than two average counties of Ohio. It will constitute about one-eighth of the surface of Holland. It will be a welcome addition to the productive area of this industrious Kingdom, and will add greatly to the national wealth and resources.

[Bulletin of the Bureau of Agriculture, U. S. Department of the Interior.]

There are from ninety-five to one hundred shoe factories in Philadelphia. When in full operation these can make in a week from 250,000 to 300,000 pairs.

From the journal of a Heoglish tourist in America: "Talk about their Yankee Doodle! Their national tune is a spittoon!"

Old maids are politely called belated sisters.

"THROW PHYSIC TO THE DOGS; I'LL NONE OF IT."

We do not in the least feel like blaming Macbeth for this expression of disgust; indeed we are rather inclined to sympathize with him. Even now-a-days most of the cathartics offered to the public are great, repulsive-looking pills, the very appearance of which is sufficient to turn one's stomach. Had Macbeth ever taken Dr. Pierce's Pleasant Purgative Pellets he would not have uttered these words of contempt. It is really encouraging, when one is able to find that a little sea-breeze pill, no larger than a grain of mustard, will as promptly produce the desired effect as a dose of great, nauseating pills. These little Pellets, unlike other cathartics, are really nature's physic. They do not debilitate, but tone and invigorate the system. No family should be without Dr. Pierce's Pleasant Purgative Pellets.

The Weekly Star.
The current number of the WEEKLY STAR is now ready. It contains the latest Home and Foreign News by Telegraph, together with a full summary of the important news of the week; also, a large amount of local and suburban news of general interest, and correspondence from different parts of the country. It contains leading editorial articles on German and Italy. The Results of the Late Elections, Sherman the Sage, European Affairs, Grain Shipping, A Gambling Murder, Our Internal Revenue, Political Notes, &c., together with a large amount of new and interesting editorial paragraphs, Fashion News, interesting stories, Personal Notes, Historical and Biographical sketches, General News Items, Humorous Gossip, Poetry, Agricultural and Scientific reading, a large amount of interesting reading matter of interest to the family circle. Criticisms on the current literature of the day, Book and Magazine Reviews, Religious Intelligence, &c., &c., together with all Home and Foreign Market and Financial Report. Price 4 cents, in wrappers, ready for mailing.

DIED.
DUNNING.—At Madisonville, Ohio, Cordelia J., daughter of John C. and Rebecca Dunning, at 8 o'clock, Thursday, November 18, 1875. Funeral on Sunday morning at 9 o'clock. 21st inst. Friends of the family invited. 1019-11

NOTICES.
Rubber Stamps, at 201 Race st. 1714-11

Mr. Alfred White
WOULD present his compliments to LADIES and GENTLEMEN, and be happy to have them examine the "Grand Statute of 'Love'" and the "Angel Gabriel," now being sculptured at his rooms.

DRAWING TABLETS.

FOR BRIGER'S

DRAWING TABLETS,

PREPARED BY

ARTHUR FORBRIGER,

Supt of Drawing in the Public Schools of Cincinnati, O.

Nos. 1, 2, 3 and 4
Have been prepared to meet the requirements of Primary or District Schools.

Nos. 5, 6 and 7
Are intended for use in Grammar or Intermediate Schools.

PRICE:
No. 1 Tablet.....15 cents.
No. 2 Tablet.....20 cents.
No. 3 Tablet.....20 cents.
No. 4 Tablet.....20 cents.
No. 5 Tablet.....30 cents.
No. 6 Tablet.....30 cents.
No. 7 Tablet.....30 cents.

Manuals, No. 1, 10c; 2, 3 and 4, 10c each.

The design, arrangement and construction of these Tablets, is directly at variance with that of any other plan ever presented, and below will be found some of the reasons which led to their publication, and practical hints in reference to their use:

1. THE CHARM OF NOVELTY maintained. The different sheets of the Tablet being fastened together, the pupil is unable to see the lesson in advance, and he does not become tired of seeing the designs which are constantly presented to the eye, often far in advance of the lesson upon which he is immediately engaged. Thus the charm of novelty is maintained, and with it increased interest in the study.

2. ABUNDANCE OF MATERIAL. Each Tablet contains sufficient material for a year's work, and a greater number of exercises and more paper than can be found in any of the Drawing Books now published.

3. THE SOLID SURFACE, which is retained to the very last sheet, removes the liability of spring, which is so objectionable: it being the immediate cause of bad lines in the Drawing Books now generally in use. Irregularities in the surface of the desks do not affect its use in the least. The compactness and solidity prevent the leaves from being ruffled and soiled, while their size does not cause the same inconvenience to the pupils, especially when seated in double desks, which is experienced when using drawing books.

4. CONVENIENCE IN EXAMINING. The sheets being separated from the Tablets, after the completed exercises, should be preserved, and each lesson of the class kept together, either on the shelf or in the envelopes prepared for that purpose, correspondingly numbered on the outside. It will be found much less tedious to examine from FORTY to FIFTY sheets of one lesson, than to handle from FORTY to FIFTY books, and search for that particular lesson in each.

5. CAREFUL GRADATION OF EXERCISES. It will be found, upon examination, that the exercises contained in the Tablets are far more carefully graded than those contained in other Drawing Books prepared for use in public schools. The steps are rendered comparatively easy, making each advanced lesson a logical sequence of the preceding one.

6. THE ACCOMPANYING COMPREHENSIVE TEACHER'S MANUAL, OR KEY to each number of the Tablets, enables any teacher capable of teaching other branches, to teach this branch successfully, and therefore make special instructors superfluous.

TESTIMONIALS.

CINCINNATI, May 29th, 1875.
"FORBRIGER'S DRAWING TABLETS" were introduced into one of our primary grades at the beginning of the present school year. They have proved so successful that Principals and Teachers unanimously favor this introduction into the schools of our city. I believe that the Tablet system is destined to supersede the Book system in the schools of our country.

JOHN B. PEASLEE,
Superintendent of Public Schools.

CHILLICOTHE, O., May 15th, 1875.
ARTHUR FORBRIGER, Esq.: Dear Sir—I have had the pleasure of examining your system of Drawing, and am convinced that the plan is well suited to graded schools, and especially that it commends itself as a self-teaching system of Manuals.

We shall most probably introduce the system into our schools the coming year.
Yours very truly,
G. A. CARPENTERS, Supt.

CINCINNATI, April 27th, 1875.
PROF. FORBRIGER: Dear Sir—I have observed, with care, your system of Drawing Tablets, since their introduction into this school, and am convinced that the plan is an excellent one. The lessons are so graded as to lead, by easy steps, to the acquisition of that skill in the formation of lines, and the construction of figures, so essential to correct drawing.

The form of the Tablet, each lesson being ab-

solutely new, while it stimulates the curiosity of the pupil, yet prevents that familiarity with the drawings which breeds indifference.

I sincerely hope their success may be commensurate with their merits.

Yours, PETER H. CLARK,
of Gates High and Intern. Schools.

RIVERSIDE, Ohio, April 16th, 1875.
MR. ARTHUR FORBRIGER: Dear Sir—Your Drawing Tablet, No. 1, is the best thing of the kind I have ever seen or used. I intend to introduce the succeeding numbers, as I need them. This system must prove a success, as it is the only one that can be used by any teacher, regardless of his lack of ability in drawing.

Another important advantage is, that several grades may be instructed at once. The aid given to the pupil keeps him from becoming discouraged, yet leave him abundant chance to make use of his own powers. My scholars are always eager to know what their next lesson will be, as they can not find out until the present one is finished. The Teacher's Manual, with each number, is very suggestive, and supplies a great need in that direction.

In fine, your Drawing Tablets bear evidence of your being a practical and enthusiastic educator in Art, while too many systems are got up merely to sell, and are successful only because they are as good as any other extant. That is now ended, for your Drawing Tablets are very much superior to all others. With best wishes, yours truly,
FRANCIS E. WILSON,
Riverside Schools.
